Steps to Goal

Setting goals is a very important step to getting to where you want to go. When planning a trip to a far-off land one researches what is there, maps out how to get there, and learns the schedules of what is available to reach the desired destination. All in all, one studies, one learns, one applies what has been learned.

My “Why”:

Where I am and where I need to be:

I want to be _____ (rank) by _____ (date).

My current volume is _____ and I will need _____ to get there.

I have _____ members and I will need _____ active members to qualify for my goal.

I currently sponsor _____ people and my goal is to sponsor _____ people.

I will invite _____ persons per day.

The steps I need to take are:

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____

I will take the necessary steps to obtain MY goal.
